Exotic Nurseries

RUTHERFORD · NEW JERSEY

House Showing Collection of Stove and Greenhouse Plants

Roehrs' General Plant Catalogue

We have pleasure in presenting this Catalogue to our many friends and patrons, and thank them for their generous support in the past, a continuance of which we respectfully solicit.

It has always been our aim to deserve the appreciation bestowed upon us, and we hope to do still better in the future.

We are continually adding to our collections of different plants, trying always to have them as complete as possible.

The stock we offer is in first-class condition and none but well-grown plants will be sent out.

Every plant offered is guaranteed true to name.

Prices quoted herein are subject to change without notice.

Visitors are always welcome at our Nurseries, which can be reached via Erie Railroad from Jersey City, N. J., Rutherford being the first station out; or via electric cars, White Line Trolley, from Hoboken, N. J., at the D. L. & W. Railroad depot.

BUSINESS TERMS

Orders from unknown parties must be accompanied by remittance or satisfactory references.

Orders for goods desired sent C. O. D. must be accompanied by 50 per cent. of amount of order.

All claims must be made on receipt of goods, otherwise they will not be considered.

All goods travel at purchaser's risk after they are in the hands of the express company.

Packing will be done in the most up-to-date manner and will be charged at cost.

Customers of approved references will receive a credit of thirty days.

All quotations are f. o. b. Rutherford or New York City.

We will deliver within fifty miles of New York City by automobile, if so desired, provided orders are large enough. Charges will be at cost.

GARDENERS AND SUPERINTENDENTS

We always have on our books names of highly qualified and experienced gardeners. We are always careful to recommend none but well-tried men. No charge whatever is made for such service to either party.

Stove and Greenhouse Plants

We have the most extensive collection in America.

We are in a position to fill conservatories with the choicest of plants. Anyone building conservatories and wishing to fill same with plants away from the ordinary every-day collections would do well to communicate with us.

These choice plants are quite as easily grown as others, add more luster and beauty to the greenhouse, and give far more pleasure to the amateur. Some of the plants enumerated in this Catalog are climbing plants, producing beautiful flowers, and are most desirable for decorating conservatories.

Many of these plants can be had in smaller sizes.

We always have on hand a quantity of large specimen plants in case immediate effect is desired.

Each

ACACIA armata	\$1.50 to \$2.50
<i>armata pendula</i>	\$1.50 to 2.00
<i>cordata</i>	\$1.50 to 2.00
<i>Drummondii</i>	\$1.50 to 2.50
<i>longifolia magnifica</i>	\$1.50 to 2.50
<i>Ovata</i>	\$1.50 to 2.50
<i>paradoxa</i>	\$1.50 to 5.00
<i>platyptera</i>	\$1.50 to 2.50
<i>pubescens</i>	\$5.00 to 10.00
<i>pulchella</i>	\$1.50 to 2.50
<i>Riceana</i>	\$1.50 to 2.50

ACALYPHA Macafeana. Foliage red, marked with crimson.....	.50c. to 1.00
Sanderi (Hispida). Grown for its long, red, amaranthus-like spikes of flowers. Green foliage.....	.50c. to 1.00
Sanderi alba	\$1 to 1.50

ACANTHUS montanus. Thistle-like in ap- pearance; long, spinose leaves.....	2.50
--	------

Alocasia argyrea

Each

AGLAONEMA commutatum50c. to \$1.00
<i>pictum</i> . Dwarf grower; foliage dark green, variegated white50c. to 2.00
<i>versicolor</i>75c. to 1.50

ALLAMANDA cathartica. Stove climber; flowers golden yellow, funnel- shaped. Quick grower.....	\$1 to 5.00
<i>grandiflora</i> . Produces thin stems of yellow flowers.....	\$1.50 to 10.00

Hendersoni. Very free-flowering variety. Flowers very large yel- low	\$1 to 7.50
Wardleyana	\$1.50 to 7.50

Williamsi. Flowers in continuous clusters. (See our Orchid Cata- logue.).....	\$1.50 to 5.00
--	----------------

ALOCASIA Alexandra	\$3 to 5.00
---------------------------------	-------------

argyrea. Surface almost silvery white, with interspaces, shaded light green.....	\$3 to 5.00
---	-------------

Gandavensis	\$5 to 10.00
gigas	3.50

Johnstonii	\$5 to 10.00
-------------------------	--------------

Kerchoveana. Large, variegated leaves.....	\$2 to 5.00
--	-------------

Lowii. Foliage olive-green, with silvery markings reverse side rich purple	\$1.50 to 5.00
---	----------------

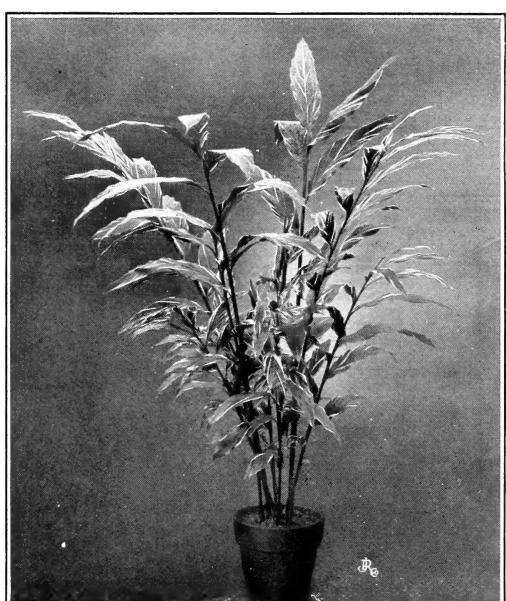

Acanthus montanus

Alocasia Zebrina

<i>Alocasia macrorhiza.</i>	Leaves blotched and each marbled white; footstalks streaked pure white	\$1 to \$4 00
<i>marginata</i>	\$3 to 5 00	
<i>Marchallii</i>	\$5 to 15 00	
<i>Martin Cahuzac.</i>	Green, with prominent white veins; reverse side light purple. \$5 to 7 50	
<i>metallica.</i>	Rich bronze; purple below. \$2 to 5 00	
<i>Sanderiana.</i>	Dark green, with striking ivory-white veins	\$3 to 5 00
<i>spectabile</i>	\$3 to 5 00	
<i>Thibautiana.</i>	Greyish olive-green; greyish white veins	\$3 to 5 00
<i>Watsoniana</i>	\$3 to 5 00	
<i>Zebrina</i> , Foliage dark green; stems light green	\$5 to 10 00	
<i>ALPINIA Sanderæ</i>	\$1 to 3 00	
<i>AMOMUM vitellinum.</i>	Resembles a Mā-ranta50c. to 1 50
<i>AMASONIA punicea</i>	\$1 to 2 50	
<i>AMPELOPSIS orientalis</i>50c. to 1 00	
<i>ANANASSA sativus foliis variegatis.</i>	A very striking foliage plant, beautifully variegated pink on light green	\$2 to 5 00
<i>ANTHURIUM Andreanum</i>	\$2.50 to 5 00	
<i>Andreanum album</i>	\$5 to 10 00	
<i>Andreanum, Amedee de la Combe.</i>	Large, variegated spathes	5 00
<i>Andreanum, Baron Gaston Chandon de Briailles</i>	5 00	
<i>Andreanum, John Laing.</i>	Spathes very darkest red	5 00
<i>Andreanum, Lawrenceanum.</i>	Spathes dark red; medium size, with prominent veins	5 00
<i>Andreanum Lowii.</i>	Very dark red	5 00
<i>Andreanum, Mlle. Maritin Cahuzac; syn., Bicolor</i>	5 00	
<i>Andreanum, Mme. de Bouvoir</i>	5 00	
<i>Andreanum, Monsieur Draps-Dom</i>	5 00	
<i>Andreanum, Mr. Julius Roehrs.</i>	Very large flowers; very dark red	5 00

<i>Anthurium Andreanum, Mrs. Julius Roehrs.</i>	Each Spathes large, salmon-pink	\$5 00
<i>Andreanum, Mrs. Spencer.</i>	Pink variety	
		\$3.50 to 7.50
<i>Andreanum Rhodochlorum.</i>	Spathes exceedingly large; heart-shaped, red; upper part yellow and light green	10 00
<i>Andreanum, Silver Cloud.</i>	Fine white variety	\$3 to 10 00
<i>Andreanum, Souvenir de Gand.</i>	Orange-red	\$3 to 10 00
<i>Andreanum, Triomphe de l'Exposition.</i>	Spathes bright blood-red. \$3 to 10 00	
<i>Bogotense</i>	\$3.50 to 10 00	
<i>crystallinum.</i>	Foliage deep velvety green; midrib crystal white	\$1.50 to 10 00
<i>crystallinum foliis variegatis.</i>	Similar to above, but finer variegated	\$5 to 15 00

Caladium, Fancy-leaved

No other foliage plants equal these in rich and gorgeous, yet soft coloring. We claim to have the finest collection in America, including all new varieties. Dormant tubers supplied from October to February. Plants afterward.

Tubers from 50 cts. to \$2 each; plants from \$1 to \$3.50 each

Alfred Maine.

Alice Van Geert. Creamy white, veined rose.

Alphonse Carr.

Antonio Joaquin.

Araras. Rosy white ground, with dark green ribs and veins.

Arethuse.

Argyrites. Small leaves, green, marbled silver.

Assunguy. Transparent leaves, with black-green veins; entire leaves suffused with deep rose-pink.

Athalia.

Azulas.

Baron de Rothschild. Mottled green, with red center and spots.

Baspbora.

Barullos.

Boildieu.

Boineatii.

B. S. Williams. Deep rose.

Camarajba.

Capibaribe.

Cardinale. Brilliant red, dotted with golden yellow and greenish yellow.

Carolina.

Caseanga.

Cayet.

Charlemagne. Large rosy leaves; nerves dark red.

Clio. Ground color deep rose, shaded white; green ribs and narrow green margin.

Combra.

Comtesse de Bertheu.

Comtesse Ferd. de Lesseps. Rose; rich crimson veins.

Comte de Germiny. Dull red leaves, with brighter veins, maculated white.

Cordova.

Countess of Warwick.

Diamantina. Ground color rose, shaded white, green ribs and narrow green margin.

Delicatissimum.

Don Manuel Lobe.

Dr. A. de Castro. Light green, with red veins.

Elsa. Light rose; numerous large red spots.

Eucharis.

Exquisite. Dwarf, with bright red, carmine leaves.

Fauste.

Flamesii.

Flamingo. Mottled carmine, red disc; scarlet veins.

Gabrielle Lemoinier. Silver-white, translucent leaves; center veined green.

Gaze de Paris. Foliage quite transparent; bright green veins.

Gaspard Crayer. Red center, with a broad green margin.

General Kuroki.

Gerard Dow. Pale yellow ground; carmine mid-rib; deep red veins; narrow green margin.

Golden Queen. Pale golden yellow.

Hayuba.

Henriette Basset.

Henry Lovatt. Rose with a deep green margin.

Icaris. Fine, large, red leaves, with narrow green edging.

Iguatu.

Isis.

Jacob Weiss.

James H. Laing. Pink, veined rose, edged green.

Joan Gande.

Jules Duplessis.

La Lille.

Lady Stafford Northcote. Broad leaf, red, shaded with crimson.

Lillie Burke. Large white leaf, rose center, netted and veined deep rose.

Chinensis cerulea. \$1.50 to \$5 each.

RHODODENDRONS, in Variety. \$1.50 to \$3 each.

LILY-OF-THE-VALLEY (Convallaria), Roehrs' Special New York Wonder. We force 1,500,000 a year. Fresh crop in December and spring. \$20 per 1,000; cold-storage, \$20 and \$25 per 1,000.

Azaleas

We import and cultivate large quantities of the choicest varieties most suited for this continent.

The prices as quoted are for well-budded stock. Special attention is drawn to the dwarf varieties.

We always have a number of specimen plants prices for which will be given on application.

Choice Varieties. 10 to 12 in. diam., \$7 per doz.;

12 to 14 in. diam., \$9 per doz.; 14 to 16 in. diam., \$12 per doz.; 16 to 18 in. diam., \$18 per doz.; 18 to 20 in. diam., \$32 per doz. Larger sizes, \$3.50, \$4.50, \$6, \$7.50 and \$10 each.

Pyramids. From \$3.50 to \$10 each.

Dwarf Varieties, such as Chas. Enke, Marie Louise and Firefly. 50c., 75c., and \$1 each.

Rhododendrons growing under natural conditions

FLOWERING SHRUBS

These indispensable hardy shrubs are mostly planted for immediate effect.

Rhododendrons

These plants, especially when planted in beds, make a beautiful display in early summer; we make a specialty of these, importing and growing them in quantities handling none but hardy varieties. We have hundreds of them in various sizes planted out in our Nurseries. We enumerate below some of the very best, giving as nearly as possible their description as to color.

HYBRID RHODODENDRONS

Alarm. White center, with band of brightest scarlet; rather small flowers.

Album elegans. A very good white; fine form.

Album grandiflorum. Fine white.

Blandyanum. Beautiful rosy-crimson; fine form; free bloomer.

Betsy Parson. Fine blue.

Everestianum. Rosy lilac; large truss of blooms; free bloomer.

General Grant. Light pink.

Giganteum. Dark red.

Gloriosum. Pink.

Hunnewell. Crimson.

Kate Waterer. Clear rosy crimson, with large, yellow mark.

Lady E. Cathcart. Bright clear rose, with crimson spots. Fine.

Old Port. Crimson.

President Lincoln. Lilac-rose.

Purpureum elegans. Good purple.

And others.

We have these in sizes from \$1.50 to \$10 each. We also have specimens in tubs at \$20 to \$100 each

RHODODENDRON KAEMPFERI

One of the latest introductions. Azalea type, single scarlet flower. Very hardy and one of the first to flower. 2-inch pots 75 cts. each, \$7 for 10, \$65 per 100.

RHODODENDRON MAXIMUM

Most suitable for large plantations and extensive massing. Grows well in shady and exposed positions.

We will make a special quotation on your wants per car, f. o. b., your railroad station.

KALMIA latifolia (Mountain Laurel). A very ornamental and valuable evergreen shrub; flowers white to rose. Can be planted singly or among Rhododendrons. Price, 75 cts. up.

Azalea Indica

Hardy Azaleas

Next to Rhododendrons, perhaps the most popular and largely used shrubs. Thrive best in partial shade, except *Azalea amœna*, which likes an exposed position.

Azalea amœna. An evergreen flowering shrub, giving a profusion of magenta flowers in May. It has no superior. We have these in all sizes from \$1.50 up. Also some large specimens at \$25 to \$100 each.

Henodegeri. Dwarf-growing variety, producing great masses of small, but very bright red flowers. 50 cts. each.

Indica. Hardy variety. Flowers white. Price from \$2.50 up to \$10 each.

Sinensis. The Chinese Azalea. Planted in sheltered position, it makes a splendid showing of flowers—yellow, orange, carmine, red. To be had in various sizes from 75 cts. to \$10.

Andromedas

Very ornamental shrubs, most suitable for planting under trees or other shady positions. The flowers very much resemble the Lily of the Valley.

Augustata	Japonica
Calyculata	Polifolia
Cassinæfolia	Racemosus
Catesbæi	Rollisonii

SKIMMIA Japonica. From 50 cts. up.

LILY-OF-THE-VALLEY. For planting out in clumps. We can supply same in large quantities. 15 cts.

Figs

In all the leading varieties.

Grape-Vines

For growing under glass. Our canes are the finest, pot-grown, imported stock.

Barbarossa	Gros. Colman
Black Alicant	Madriesfield Court
Black Hamburgh	Maroc
Bucklander Sweetwater	Muscat of Alexandria
Foster's Seedling	

Vines and Climbers

AMPELOPSIS Lowi. New. Leaves much smaller than *A. Veitchii*, turning beautiful purple in fall. 50 cts.

Veitchii purpurea. 35 cts. each.

Veitchii robusta. 35 cts.

ARISTOLOCHIA Siphon. 75 cts. to \$1.50.

CLEMATIS paniculata. Very luxuriant grower; good for covering fences, etc. 35 cts. to 50 cts.; specimens, \$1 to \$2.

IVY, Small-leaved English. 25 cts.; large plants, \$1.50 to \$5.

EUONYMUS radicans variegata. Very pretty creeper, most suitable to cover low walls, etc. 35 cts. to 50 cts. each.

WISTARIA Chinensis. Strong grower. Flowers sky-blue, in drooping clusters. 50 cts. to \$2. Pot-grown, extra-good plants. \$1.50 to \$5 each.

Chinensis alba (White Wistaria). 75 cts. to \$2.50.

Evergreen Planting

Nursery Department

Owing to the ever-increasing demand for Specimen Evergreens we beg to invite our customers who intend to beautify their grounds, however large or small, to call at our Nurseries, where they will find a fine selection of large subjects. We have recently added considerable more land for this special purpose, where we intend to go into growing these specialties on a larger scale. We are continually adding to our collection. The stock is absolutely reliable, having been frequently transplanted; therefore, lifting with a good ball of fibrous roots.

Evergreen Trees

ABIES ARIZONICA. See *Abies lasiocarpa, var. Arizonica*

amabilis. White Fir. 50 to 80 ft. Needles dark green above, silvery underneath. Rapid grower. 1 to 1½ ft., \$1.50; 2 to 2½ ft., \$2.50; 9 ft., \$20 to \$30.

brachyphylla. (Syn. *A. homolepis*.) A Japanese species making a very satisfactory tree in not too poor a soil. 2 to 2½ ft., \$1; 3 to 4 ft., \$2.

balsamea (Balsam Fir). 50 to 80 ft. Foliage dark green; lustrous above, pale below. Perfectly hardy but loses its beauty early in cultivation. 1½ to 2 ft., 75 cts.; 2½ to 3 ft., \$1.

Cephalonica (Cephalonian Fir). 60 to 70 ft. Foliage dark green, rigid and sharp-pointed branches. 2 to 2½ ft., \$2.50.

concolor. (White Fir.) 100 to 250 ft. Foliage light bluish green; of all the Fir trees it best withstands the heat and frost. One of the most desirable. 2 to 2½ ft., \$2.50; 3 to 3½ ft., \$5; 3½ to 4 ft., \$7.

Abies Douglasii. (Syn. *Pseudotsuga Douglasii*.) (Douglas Fir) 100 to 250 ft. Foliage soft, brilliant gray; very hardy. 1 to 1½ to 2 ft., \$1.25; 2 to 2½ ft., \$1.75; 3 to 4 ft., \$3.

Douglasii, var. Glaucia. The same as the foregoing, with the exception of being of an intense blue. 2 to 2½ ft., \$1.50; 2½ to 3 ft., \$2.50.

Fraserii (She Balsam). 30 to 50 ft. Foliage dark green; very similar to *A. Balsamea*. 3 to 4 ft., \$3.

Lasiocarpa, var. Arizonica. (Syn. to *A. Arizonica*.) Foliage blue-green and glaucous; making one of the finest specimen evergreens. 3 to 5 ft., \$6 to \$10.

nobilis (Red Fir), 150 to 250 ft. Foliage dark green; very fine specimen plants for lawn, etc. 2½ to 3 ft., \$2.50; 3 to 4 ft., \$3 to \$5.

nobilis glauca. Same as foregoing, only blue. 1½ to 2 ft., \$2; 2 to 2½ ft., \$3; 4 to 5 ft., \$6; 6 to 8 ft., \$10 to \$20.

Nordmaniana (Nordman's Fir). 100 to 150 ft. Foliage dark green; does well when placed in a protected position. 4 to 5 ft., \$5; 5 to 6 ft., \$10; 6 to 7 ft., \$15 to \$20.

Abies Pectinata (Silver Fir). (Syn. & *Picea*) 100 to 200 ft. Foliage dark green above, silvery white beneath. Perfectly hardy. 6 to 8 ft., \$8 to \$12.

picea. See *A. Pectinata*.

pinsapo (Spanish Fir). 70 to 80 ft. Foliage light green; not very hardy, but of very distinctive habit and growth. Should not be omitted in a collection of evergreens. 3½ to 4 ft., \$5.

subalpina. Foliage blue-green and glaucous. 3 to 5 ft., \$4 to \$7.

Veitchii (Veitch's Fir). 80 to 100 ft. Foliage light green; considered one of the best introductions of late years on account of its perfect hardiness and beauty. 1½ to 2 ft., \$1; 2 to 2½ ft., \$3; 5 to 6 ft., \$8; 6 to 8 ft., \$10 to \$15.

BIOTA. See *Thuyas*

CEDRUS Atlantica glauca. 120 ft. Steel-blue foliage; not very beautiful in growing state, but the older they become the more beautiful they are. Very desirable for permanent planting. 3 to 4 ft., \$3; 4 to 5 ft., \$4; 5 to 6 ft., \$6. Specimens up to 8 ft., \$15 to \$20.

CRYPTOMERIA elegans, var Pungens. Light green; rapid grower; coarse needles. Novelty. 4 to 5 ft., \$7.

CUPRESSUS Lawsoniana. Triumph of Boskoop. Bluish foliage. This is considered one of the hardest Cupressus. 3 to 4 ft., \$5.

Juniperus Hibernica

Cupressus Nootkatensis (Nootka Sound Cypress.) Bluish, feathery foliage. 3 to 4 ft., \$3.50; 4 to 5 ft., \$4.50

JUNIPERUS communis. Foliage light green; columnar tree. 9 to 18 in., 40 cts.; 1½ to 2 ft., 60 cts.; 2 to 3 ft., \$1.

Chinensis, var. Argentea Variegata. Foliage dark green with white tips intermixed. Very beautiful. Pyramidal tree. 2½ to 3 ft., \$2.50; 2 to 3½ ft., \$3.50; 5 to 6 ft., \$7 to \$10.

Chinensis aurea. Foliage golden yellow; compact growth. 1½ ft., \$1.

Hibernica (Irish Juniperus). The foliage of this variety is bright green; erect; a dense conical tree. 2½ to 3 ft., \$1.50; 3 to 3½ ft., \$2; 3½ to 4 ft., \$3.

Japonica aurea. Foliage golden yellow, slightly procumbent in habit, making an open growing tree. 2 to 2½ ft., \$1.50; 2½ to 3 ft., \$2.50; 3 to 4 ft., \$4; 4 to 5 ft., \$5 to \$6.

Pfitzeriana. Foliage dark green; broad open growth. Very fine where a low specimen evergreen is wanted. 3½ ft., \$6 to \$8.

Abies Nordmaniana (see page 30)

Picea pungens (see page 33)

Juniperus Sabina (Savin Juniper). Foliage dark green; low-growing dwarf evergreen. Very desirable for rockeries and for edging evergreen plantings. $1\frac{1}{2} \times 1\frac{1}{2}$ ft., \$3; $1\frac{1}{2} \times 2$ ft., \$4.

Picea pungens Kosteri (see page 33)

Juniperus Tamariscifolia. Foliage dark green. In habit, low-growing and procumbent.

Virginiana (Common Red Cedar). Foliage dark green, making a symmetrical pyramidal tree. 2 to 3 ft., 75 cts.; 3 to 4 ft., \$1.50; 4 to 5 ft., \$2.50; 6 to 7 ft., \$5.

Virginiana, var. glauca. This is a blue form of the common Red Cedar, and a very desirable variety. 2 to 3 ft., \$2.50; 3 to 4 ft., \$4; 4 to 5 ft., \$6; 6 to 7 ft., \$8 to \$10.

PICEA alba (White Spruce). 60 to 70 ft. Light silvery green. Makes a very satisfactory tree for mass planting. 3 to 4 ft., \$1.50 to \$2.50.

Alcockiana (Alcock's Spruce). 100 to 150 ft. Foliage dark green above, and bright blue beneath. 2 to $2\frac{1}{2}$ ft., \$1; $2\frac{1}{2}$ to 3 ft., \$1.25; 6 to 10 ft., \$10 to \$25.

Engelmanni (Engelman's Spruce). 100 to 150 ft. Foliage varying from bluish green to steel-blue. 1 to 2 ft., 60 cts.; 2 to 3 ft., \$1.

excelsa (Norway Spruce). 100 to 150 ft. Foliage dark green, rapid and pyramidal grower, and one of the most largely used. $1\frac{1}{2}$ to 2 ft., 50 cts.; $3\frac{1}{2}$ to 4 ft., \$2; $2\frac{1}{2}$ to 3 ft., \$1.

excelsa, var. Clanbrasiliiana. Dwarf, dark green; compact form, with short crowded branchlets. 1 to $1\frac{1}{2}$ ft., \$1.50.

excelsa, var. Conica. Dwarf, similar to foregoing, differing in shape, which is conical. 1 to $1\frac{1}{2}$ ft., \$1.50; $1\frac{1}{2}$ to 2 ft., \$2.

Finedonensis. Foliage varies in color from pale yellow, then bronzy brown and finally light green. 5 to 6 ft., \$8; 7 to 8 ft., \$10.

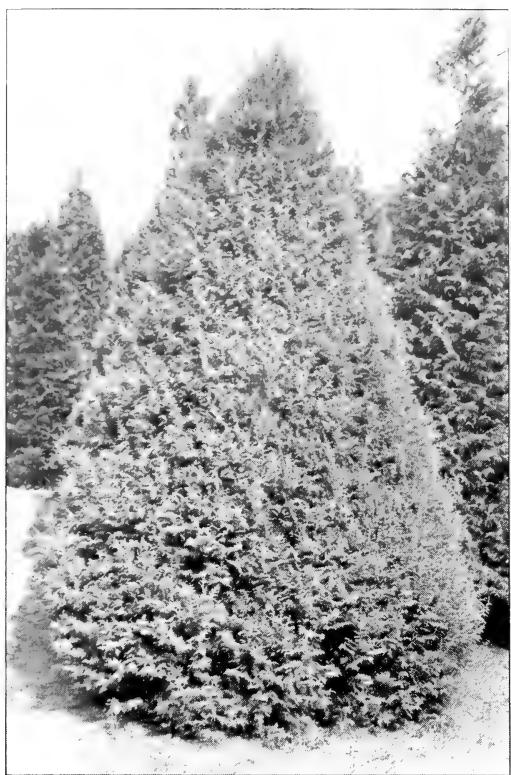

Finedonensis inverta (Weeping Spruce). Dark green foliage. A very beautiful lawn tree, with its long drooping pendulous branches. 2 to 3 ft., \$1.50; 3 to $3\frac{1}{2}$ ft., \$2.50.

Evergreens in our Nursery

Taxus baccata (see page 35)

Retinospora plumosa

Pinus excelsa. 150 ft. A very handsome tree, hardy as far north as Massachusetts, in sheltered position. 2 to 3 ft., \$1.50; 3 to 4 ft., \$2.

Cembra (Swiss Stove Pine). Dark green short branches; close pyramidal tree; very hardy. 1½ to 2 ft., \$2; 2½ to 3 ft., \$2.50; 3½ to 4 ft., \$3.50.

Divaricata. (Syn. *P. Banksiana*.) 70 ft. Bright green; the most northern of the pines, but not of very great ornamental value. 1½ to 2 ft., \$1.

Montana, var. Mughus (Mugho Pine). Dwarf. This species forms a dark spreading bush, very often broader than its height. Prostrate in habit, and valuable for rockeries, banks and seashore. 8 to 12 x 12 to 18, \$1.50; 12 to 18 x 18 to 24, \$2.50.

parviflora glauca. 80 ft. Light bluish foliage; pyramidal habit with slender horizontal branches. 3 to 3½ ft., \$3 to \$5.

resinosa (Red or Norway Pine). 70 ft. This tree forms a broad pyramidal head when young, and an open, round-topped one when old. 5 to 6 ft., \$8.

Strobus. White Pine. 100 ft. Perfectly hardy, and one of the most satisfactory pines growing in almost all kinds of soil. 1½ to 2 ft., 50 cts.; 2½ to 3 ft., \$1.25; 3½ to 4 ft., \$2.

sylvestris (Scotch Pine). 60 to 70 ft. Rapid grower and very good for windbreaks, etc. Very gnarled in old age, and therefore very picturesque. 2 to 3 ft., 75 cts.; 3 to 4 ft., \$1.

RETINOSPORA filifera (Thread-branched Retinospora). A very handsome lawn tree, with its drooping branches and thread-like appearance. 1 to 1½ ft., 75c.; 2 to 2½ ft., \$1.50; 3 to 3½ ft., \$4.

Picea orientalis (Oriental Spruce). 100 to 120 ft. Dark green and shining foliage. Very similar in habit to *Excelsa* with the exception that the needles are much shorter and more closely set. 1½ to 2 ft., \$1.50; 2½ to 3 ft., \$2.50; 3½ to 4 ft., \$4.

polita. 70 to 90 ft. Foliage dark shining green; dense broad pyramid tree and towards maturity similar to *Picea excelsa*. 1½ to 2 ft., \$1.50; 2 to 2½ ft., \$2.50; 2½ to 3 ft., \$3; 3 to 4 ft., \$4 to \$6; 6 to 8 ft., \$10 to \$20.

Pungens glauca (Colorado Blue Spruce). 1½ ft., \$1; 2 ft., \$2; 2½ ft., \$2.50; 3 ft., \$3.50; 4 ft., \$5; 5 ft., \$10.

pungens Kosteri (Koster's Blue Spruce). An improved form of *Picea pungens glauca*, being of a more intense blue. 1½ to 2 ft., \$2 to \$3; 2½ to 3 ft., \$3 to \$5; 3½ to 4 ft., \$7 to \$10; 4½ to 5 ft., \$9 to \$15; 5½ to 6 ft., \$18 to \$25; 6 to 10 ft., \$25 to \$50.

Remonti. Dwarf. Slightly lighter green than others; good for rockeries and in front of evergreen plantations. 2 to 2½ ft., \$4.

PINUS Laricio, var. Austriaca. (Syn. *P. Laricio* var. *nigricans*.) 100 to 150 ft. Long, dark green, rigid needles. This makes a very symmetrical tree, both in its growth and in its old age. 2 to 2½ ft., \$1.25; 2½ to 3 ft., \$1.75.

Pinus Mughus

Tsuga group

Retinospora filifera aurea. Golden type of the preceding. 1½ ft., \$4; 2 ft., \$5; 3 ft., \$9.

obtusa. Dark green foliage; compact growth. 2 to 2½ ft., \$2; 2½ to 3 ft., \$3.50; 3 to 4 ft., \$4.

obtusa aurea. Golden yellow; compact growth. 1 to 1½ ft., \$2; 2 to 3 ft., \$5.

obtusa, var. gracilis aurea. Golden yellow foliage; graceful and beautiful. 2 to 2½ ft., \$4.

obtusa, var. gracilis nova. New and distinct. 2 to 2½ ft., \$2; 2½ to 3 ft., \$3; 3 to 3½ ft., \$5.

pisifera (Pea-fruited Retinospora). Dark green, open pyramidal tree. 4 to 5 ft., \$5; 6 to 7 ft., \$15 to \$20; 9 to 10 ft., \$20 to \$30.

pisifera aurea (Golden Pea-fruited Retinospora). 2½ to 3 ft., \$2; 3½ to 4 ft., \$4; 4½ to 5 ft., \$5; 6 to 7 ft., \$20 to \$30.

plumosa (Plume-like Retinospora). The most widely planted of any, and chiefly used for windbreaks, mass planting, etc. 2 to 3 ft., \$1.50; 3 to 4 ft., \$4; 4 to 5 ft., \$6.

plumosa aurea. 2 to 3 ft., \$1; 3½ to 4 ft., \$3; 4½ to 5 ft., \$5.

Squarrosa, var. Veitchii. In character similar to *Retinospora plumosa*. The foliage is silvery green and is one of the most ornamental evergreens; withstands shearing well. 2 to 2½ ft., \$1.25; 2½ to 3 ft., \$2; 4 to 5 ft., \$5 to \$10.

SCIADOPITYS verticillata (Umbrella Pine). Foliage dark shining green, quite distinct from other evergreens in having much broader, larger and coarser needles. 2½ to 3 ft., \$4; 3½ to 4 ft., \$6; 5 to 6 ft., \$10.

TAXODIUM distichum (Bald Cypress). Light green foliage; should be planted in damp situations along streams and lakes. 3 to 4 ft., \$2; 4 to 5 ft., \$4; 5 to 6 ft., \$6.

TAXUS baccata (English Yew). Dark green foliage; pyramidal tree. To do well, should not be planted further north than Phila. 1½ to 2 ft., \$1; 2 to 2½ ft., \$1.50; 3½ to 4 ft., \$4.

Retinospora filifera (see page 34)

*Thuya occidentalis*

Taxus Canadensis (Canadian Yew). Dark green foliage; low-spreading and bushy. 1 to 1½ ft., 50 cts.; 1½ to 2 ft., \$1.

cuspidata (Cup-shaped Yew). 50 ft. Dark green foliage; slow-growing, and very characteristic. Should be found in every garden. 1 to 1½ ft., \$1 to \$3; 1½ to 2 ft., \$3 to \$5.

THUYA occidentalis (American Arborvitæ). Foliage bright green above, yellowish beneath. One of the most largely used evergreens for mass planting and hedges. It withstands shearing very well, and it is perfectly hardy. 1½ to 2 ft., 35 cts.; 2½ to 3 ft., 70 cts.; 3 to 4 ft., 90 cts.; 4 to 5 ft., \$1.25; 5 to 6 ft., \$2.

occidentalis aurea. Foliage golden yellow. One of the best. 1 to 1½ ft., \$1; 2½ to 3 ft., \$2.50.

occidentalis, var. aurea variegata. Foliage golden variegated. 1½ to 2 ft., \$1.

occidentalis, Columbia. Foliage silvery variegated. Grand strong grower. 3 to 3½ ft., \$4; 3½ to 4 ft., \$5; 4 to 5 ft., \$5 to \$8.

occidentalis Elwangeriana. Foliage bluish purple with two distinct kinds of leaves. 2 to 2½ ft., \$1.50; 2½ to 3 ft., \$2; 3½ to 4 ft., \$3.50.

occidentalis globosa. Dwarf. Foliage dark green. Round, compact form. 12 to 15 in. x 15 to 18 in., \$1; 1½ to 2 ft., \$1.50; 2 to 2½ ft., \$2.

occidentalis Hoveyii. Foliage dark green; similar to *Thuya occidentalis globosa*, but more vigorous in habit. 2 to 2½ ft., \$1.50.

occidentalis, var. lutea. (Syn. Geo. Peabody.) Bright yellow foliage. Pyramidal habit very good. 2½ to 3 ft., \$2; 3 to 3½ ft., \$3; 4 to 5 ft., \$4; 5 to 6 ft., \$5.

occidentalis, var. pyramidalis (Pyramidal Arborvitæ). Foliage light green, dense pyramid growth. 2½ to 3 ft., \$1.50; 3½ to 4 ft., \$2; 4 to 5 ft., \$3.

occidentalis, var. Spiralis. Foliage dark green. Very characteristic. Pyramidal growth. 2 to 3 ft., \$3 to \$4.

Thuya occidentalis spicata alba. Foliage light green, ends tipped silvery white. 3 to 3½ ft., \$2; 3½ to 4 ft., \$3; 4 to 4½ ft., \$4.

occidentalis Rosenthali. Foliage light green; very good. 3 to 3½ ft., \$3.

occidentalis, var. Varvæneana. Foliage yellow; in winter changing to a bronzy brown. 2½ to 3 ft., \$2; 3½ to 4 ft., \$3.

Standishi (Japanese Arborvitæ). Foliage dark green; pyramid habit; pendulous branches. 2½ to 3 ft., \$1.50; 5 to 6 ft., \$6.

THUYOPSIS borealis glauca. Foliage dark blue. Good. 2 to 3 ft., \$1.50; 3 to 4 ft., \$3.

TSUGA Canadensis (Common Hemlock). Foliage light green. Beautiful for specimen, mass and hedge planting. Withstands shearing well. 1½ to 2 ft., 75 cts.; 2 to 2½ ft., \$1.25; 3 to 3½ ft., \$2.75; 3½ to 4 ft., \$4; 4 to 4½ ft., \$5.

Japanese Maples

These plants, with their delicately cut foliage and colors, running from green to purple and golden, produce a wonderful effect when either planted singly or in groups. They are mostly of a dwarf spreading habit. All our plants are pot grown, therefore much stronger and better than imported ones.

ACER Japonicum aureum. Foliage golden suffused with green. \$1 to \$4.50.

Acer Japonicum filicifolium. Large foliage, pale green. \$1 to \$1.50.

Japonicum macrophyllum. Large, light green leaves. 75 cts. to \$3.

polymorphum. Leaves green, small, deeply cut. Young shoots red. 75 cts. to \$4.

polymorphum atropurpureum. Foliage dark purple, deeply lobed. \$1 to \$5.

polymorphum palmatum. Leaves light green deeply cut. \$1 to \$4.

Herbaceous Border

Hardy Herbaceous Plants

Every day the demand for these perennials is increasing and they are fast becoming the most popular flowers.

There is such an endless variety, differing in color, form and time of blooming, that even with limited space and careful selection, flowers can be had from early spring till frost puts them to rest for the winter.

They require little care and as the plants increase in size every year, it is quite inexpensive to plant a border or some beds with these hardy plants.

Bamboo Shading for Greenhouses

6 feet wide, 8 feet high, 15 pieces to a bale.
7 feet wide, 9 feet high, 15 pieces to a bale.
9 feet wide, 10 feet high, 10 pieces to a bale.
10 feet wide, 12 feet high, 10 pieces to a bale.

2 cents per square foot

Roehr's Patented Pot Hangers

Made of single and double wire. Fit any size pot; easily adjusted and removed. 12 cts. each.

Nico-Fume Liquid

One-half gallon \$5.50; gallon. \$10.50.

Peat and Moss

	per doz.
Selected Orchid Peat	\$2 .00
Selected Orchid Peat, picked	4 .00
Selected Sphagnum Moss	2 .00

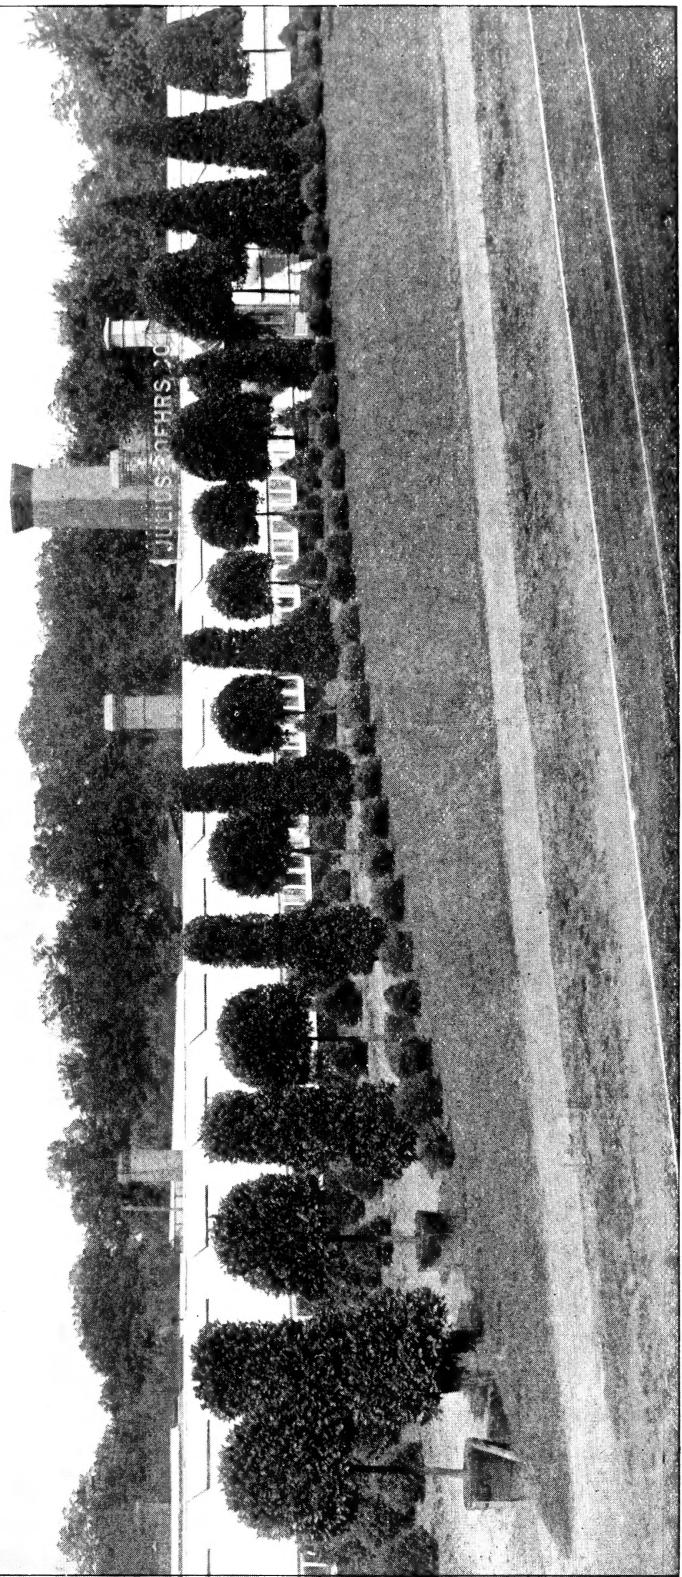

Muratori's Automatic Hand Sprayer

The best and most reliable instrument ever invented for spraying plants. Used with either clear water or liquid insecticide. It diffuses an even dew-like spray on every part of the plant in a manner impossible to be obtained by any syringe. Full directions with sprayer. Price in burnished copper, \$15.
